BENCH BRACKET

EASY!

1 Fasten DeckZone™ Bench Bracket to the deck in the desired location.

2 Attach the 2"x 4" back support to the Bench Bracket.

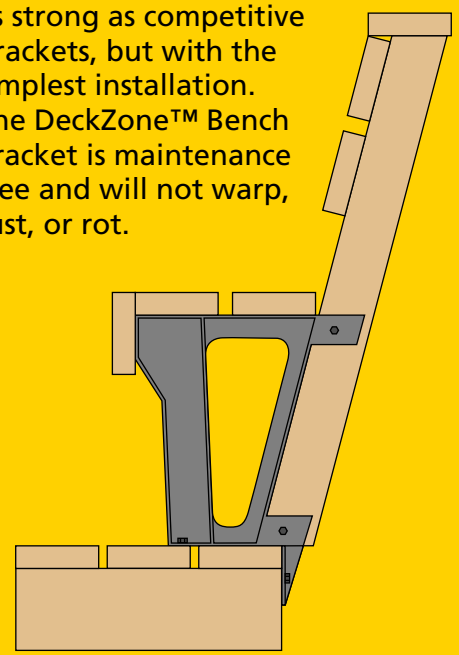

3 Attach the 2"x 6" seat, back and rail boards to complete the installation.

The DeckZone™ Bench Bracket is manufactured using Composite Reinforced Plastic Technology to provide you with the Best Deck Bench Bracket on the market today. It is designed to meet your needs of strength and ease of installation so that you may enjoy your perimeter deck seating for years to come. The DeckZone™ Bench Bracket may be added to existing decks or new deck, dock, and concrete patio installations.

The DeckZone™ Bench Bracket has been designed so there are no difficult cuts or angles to make, so that you can enjoy your perimeter bench with professional looking results, sooner.

Premium Design

The DeckZone™ Bench Bracket is the best bracket of it's kind on the market today. It is designed using composite reinforced plastic technology to be approximately twice as strong as competitive brackets, but with the simplest installation. The DeckZone™ Bench Bracket is maintenance free and will not warp, rust, or rot.

Attractive and Comfortable

You can build a comfortable, attractive, and functional perimeter bench on any size and shape of deck by using standard 2"x 4" and 2"x 6" boards, with the DeckZone™ Bench Bracket. It combines additional seating area with a comfortable back support and strong top railing.

Functional and Practical

With the DeckZone™ Bench Bracket, you can create safe and professional results including corner seating and tying the bench into existing handrails with the installation instructions included in each package.

Follow local building codes.
